I've been working as a Sound Recordist since 2008 on TVC's, documentaries, feature & series drama, lifestyle & reality series, virtual reality, short films, and just about everything in between. I enjoy the fluid nature of the industry working in new places, meeting new people, and tackling new challenges. Over the last few years I've been focused on finessing my workflow in TVC's and now I'm starting to transition into Series & Feature Drama, and build on my experience and equipment to accommodate larger scale productions.
