ME

I come from a family transport background. Logistics are in my blood. Unit Managing & Production just seemed to be a place where I fitted. I'm committed to making sure a production runs smoothly. I'm well organised and always willing to help others whenever I can. I understand the need to use quiet times to prep for the often unexpected situations that arise.

I'm friendly and approachable and I have a strong work ethic. I also believe that work should be enjoyable, and I love to have a laugh.

I'm a clear communicator and I can relate to everyone on set no matter what position they hold.

To every single job I bring a friendly and professional approach.

I'd love a chance to work with you.
