I have worked in the industry since 2010, taking part in some of the most breathtaking productions from around the world.

I have the greatest respect for production value and I always strive to provide a high-quality service to my peers.

I am humble and retain a clear mind and temperament in high stress environments.

Since 2020, I have worked as a Boom op (1st & 2nd Assist) in both Qld and Melbourne (large and small crew). I have shown strength in the technical requirements of the role and drama set processes, I come on time with a good attitude and calm respectful demeanor.

Testimonial

"Thanks Jack, as per usual your sound was superb and Michael Den Elzin was over the moon with the quality and separation of tracks. You're Definitely our go to sound guy, it's not a gig for everyone and tough going and crazy but you are a pillar of calmness and professionalism.

All the best"
