RUNNER / PRODUCTION ASSISTANT

BIO

Even though I'm in the early stages of my career, I feel like I've done so much and met so many people and all the more ready to keep learning. My previous work has helped me figure out how to deal with any situation that presents itself and to take it head on. My volunteer and interning experience has taken me across an array of production and given me plenty of insight into how I can prove myself as an asset on set.
