## Objective

Stirring the Pot will be the fuel to the cast and crew of your production.

All meals are freshly prepared with all dietary requirements adhered to. We use local suppliers that we have formed a strong relationship with and that also provide high quality produce. We have a focus on our footprint and only use compostable products and also personally compost food scraps.

Our kitchen is Health Department approved and registered and we are also ESV compliant.

We go by the motto, "if we wouldn't serve it to our family, we shouldn't serve it to the crew".

Previously I was the manager and business partner of Sweet Seduction Catering. At the beginning of 2021 I will be operating under Stirring the Pot.

Attached is CV for productions where I was head of department, managing and operating the running of catering department.
